

Evansville Metropolitan Planning Organization

Program Year 2021 Annual Listing of Obligated Projects

Evansville MPO

Henderson • Vanderburgh • Warrick

December 2021
Indiana, Kentucky, Transit, and Planning Obligations

The Evansville Metropolitan Planning Organization Transportation Improvement Program (TIP) contains a listing of transportation projects proposed to be undertaken over a five-year period. Many, though not all, of the projects in the TIP will utilize funds from the Federal Highway Administration (FHWA) and/or Federal Transit Administration (FTA). Project schedules and costs often change based on a number of variables. As a consequence, the TIP does not always present the latest project expenditure information.

In an effort to further inform the public about how federal funds are actually spent, the Fixing America's Surface Transportation Act (FAST Act) requires that Metropolitan Planning Organizations publish an annual listing of projects for which federal funds have been obligated in the preceding year. By definition, an obligated project has received authorization by a federal agency. This authorization is the federal government's legal commitment to pay the federal share of a project's cost. Project obligation does not necessarily mean that work is underway. The project process may require additional steps, such as design consultant selection, or the completion of a letting process, before work can commence.

This report documents transportation projects in the Evansville MPO region that were obligated for spending using federal funds during the program year 2021. The TIP that was in effect during fiscal year 2021 was the 2020-2024 TIP, therefore, the TIP or programmed information provided in the following tables is primarily from the 2020-2024 TIP. Please note that Indiana FHWA projects and FTA projects in both states reflect a state fiscal year reporting period (July 1, 2020 to June 30, 2021). Kentucky FHWA projects reflect a federal fiscal year 2021 (October 1, 2020 to September 30, 2021).

Some highlights include:

- \$15.7 million in FHWA funds obligated to 36 projects in the Evansville MPO region.
- \$7.1 million in FTA funds committed to METS and HART transit services.
- \$5.7 million in Evansville MPO dedicated funds obligated to 8 local projects
- \$204.2 million in FHWA funds obligated to the I-69 ORX Phase 1 project in Kentucky

The report contains the detailed funding information for the projects receiving obligated funds in fiscal year 2021.
